Last Night at First Baptist  
by Dr. Mahony.

Sermons to be Preached Every

### THE PROGRAM FOR TOMORROW

To a crowded house the Bible Institute began last night at the First Baptist church with an interesting sermon on "The Little Gospel," by the Rev. W. J. Mahony. Services were held this morning, as well as this afternoon. This evening there will be services. The program will be carried out until Friday night, when the institute will close. The program was arranged by the pastor, the Rev. M. E. Dodd, who has secured some of the best speakers in the state.

Great interest in the services is expected all week. The Rev. C. M. Thompson, formerly pastor of the church, editor of the Western Record at Louisville, will deliver several addresses. This morning the following pastors, who are on the program for addresses have arrived: W. J. Mahony, M. E. Staley, of Fulton, W. C. Taylor, of Arlington; J. M. Burgess, of Blandville; J. R. Stewart, of Lane Oak, Ed. Bennett, of Blandville, and W. L. Sullivan, of Clinton.

All of the speakers have promised to attend the institute and keep all of the engagements.

The board will name the city and set the time for the annual convention this year, which will be held in a few months. The convention last year was to be held at Dawson, but owing to changes some other city will be named. Mr. Moshe hopes to land the convention for Paducah this year.

### EARTHQUAKE NOT LOCATED YET-- FELT IN RUSSIA

St. Petersburg, Jan. 25.—Although all reports from the various observatories in Russia locate the earthquake, the shocks of which were recorded yesterday, somewhere on the Russian side of Pamirs, Turkistan, no direct news has been received that would serve to fix the disturbance in any definite place. A dispatch from Boshom, in Transcaucasia, reports the registering there by the seismographs instruments of a distant earthquake.

Russian Turkistan in the region indicated is sparsely settled, and details of an earthquake there would be very slow in reaching St. Petersburg. The first direct reports from the scene of the great earthquake at Karatagh, Russian Turkistan, in October, 1907, were not received here until three weeks after its occurrence. In that earthquake about 15,000 persons were killed.

Warning letters to buyers not to buy association tobacco were received.

## TWO ARE LYNCHED IN ALABAMA WHEN MOBS CATCH THEM

Tusculum, Ala., Jan. 25.—Sam Davenport, a negro, was hanged by a mob at Leighton, ten miles east of Tusculum last evening about dark. It having been shown that he applied the torch to the barn of John A. Gairhath, a prominent citizen of Leighton, Friday night, resulting in the destruction of the building, sixteen head of horses and mules and a large quantity of feed stuff, entailing a loss of more than \$5,000.

### Assault Lynched.

Scottsboro, Ala., Jan. 25.—The negro who attempted to assault the daughter of James Ridley, of Bolivar, last night was lynched last night.

A large barn together with a lot of live stock and feed stuff of ex-Tax Collector Ridley was set on fire and burned last night by a discharged negro man servant. While the barn was burning and the men were at the fire the negro entered the residence and attempted to assault a young married daughter of Mr. Ridley.

New York, Jan. 25.—The White Star liner, Battle, with passengers of the Republic aboard, reached quarantine. The Florida, damaged, is in the company of the American liner, New York, near Sandy Hook. The Republic sank last night in 45 fathoms. Captain Sealby was taken off just before she sank.

### CHIEF TALKS OF LID.

"Next Sunday I believe I will close up everything, including cigar stands, soda water fountains and every line of business, except perishable goods, as prescribed by law," said Chief Collins this morning. Yesterday Chief Collins inaugurated a crusade on the grocers keeping open on the Sabbath, and the police were given instructions to watch all the stores. As a result two stores were found open and warrants issued. The clamping down of the lid on the grocers has started a howl, and the grocery dealers are pointing out that the cigar stands and drug stores in the business districts are allowed to sell everything on Sunday, and the grocery dealers think they should have the same privileges. As a result of the dissatisfaction, Chief Collins is considering the advisability of putting the lid on good red tight and allowing only perishable goods sold on Sunday.

### Taft Off For Panama

Springfield, Ill., Jan. 25.—Senator Hopkins is here and Lorimer is expected to arrive tonight. It is evident the senatorial contest will be carried on with the same vigor as last week.

### May Quarantine Cairo

A quarantine may be declared by Paducah against Cairo, from which town smallpox is being carried into Kentucky. This morning a negro preacher and his family on South Fifth street was moved to the pest house. The preacher had been to Cairo. He took the disease and returned home, spreading it among the members of his family. Also another negro was found with a well developed case of smallpox, who said that he had come from Cairo.

## WHO HAS CONTROL OF MARKET HOUSE VEXING QUESTION

George Walters and Board of  
Public Works Both Assert  
Their Authority.

Two Licenses Granted For  
Same Stall.

### IS UP TO CITY SOLICITOR

Another interesting question, resulting from the multiplicity of tax collectors and other officers in the city hall, has arisen to vex the legal department. This time it involves the market house.

Gus Singleton had been leasing a bench, but it seems that Albert Saprillo was occupying it with fruit. It has been the custom of the board, when a vacancy occurred, to lease the bench to the first applicant, providing that applicant is desirable. Preference is always given to home-made gardeners, as it is understood the house was erected for vegetable and meat dealers, and not fruit dealers. When Mr. Singleton made no application to renew his license, the board considered his bench vacant and referred to the list. The first name was that of a Graves county man, who sells his produce to hucksters. The board passed on to the next, D. H. Mitcheson, who happened to be a colored gardener of this county. The board voted to lease the bench to him, and his wife paid the \$12.50 for six months' license in City Treasurer Dorian. She took the receipt to City Clerk Maurice McIntyre, who refused to recognize Treasurer Dorian's receipt.

Then it developed that George W. Walters had received \$12.50 from Albert Saprillo and given him a receipt, and that City Clerk McIntyre had issued him a license in his own name without consulting the board of public works. All this was unknown to the members of the board of public works, who simply were aware that Singleton had not applied for his license.

Walters said Saprillo told him he had been occupying a bench, and when asked in whose name he would have the license said he didn't care. Marketmaster Clark, recognizing the authority of the board of public works, attempted to evict Saprillo, who had taken possession, and asked Police Judge Cross for a warrant, when Saprillo disobeyed him. Judge Cross said he knew of no police regulation that Saprillo was violating and declined to issue any warrant until he could be shown the law for it.

### Missouri Contest

Jefferson City, Mo., Jan. 25.—Speaker Spear said this morning he feared the legislature would be forced to settle the lieutenant governorship dispute. He fears the committee will be unable to settle the matter alone, leaving the legislature the task merely of approving the report.

### Cooper Case

Nashville, Jan. 25.—The court room was crowded today when Judge Hart called the Cooper case to continue the arguments dropped Saturday because of his illness. McCann began reading affidavits to support his contention that Leigh should be withdrawn as juror.

Any readers of The Sun, therefore, who wish to contribute, may send the money to The Sun and announcements of the contributions will be made from day to day.

## FINANCE COMMITTEE PROBABLY WILL RECOMMEND \$2,400 FOR HOME OF THE FRIENDLESS--PARKS AND LIBRARY

Meeting is Being Held This  
Afternoon to Prepare Report  
on Budget Ordinance Tomorrow Night.

The joint finance committee of  
the general council is in session this  
afternoon, preparing a report to the  
two boards tomorrow night on the  
apportionment ordinance. While the  
committee is holding expenses down  
as closely as possible, the members  
apparently have no intention of crippling  
the city by their economy.

Among the items apparently settled upon are \$2,400 for the Home of the Friendless, \$4,500 for the public library, \$5,000 for parks and \$10,000 for Riverside hospital. The board is considering each item with the reports of the departments. A full membership is present: Aldermen Hank, Oehlenschlaeger and Lackey and Councilmen Van Meter, Hannan and Lally. Mayor Smith and Auditor Kirkland are present.

### Carrie on the Warpath.

London, Jan. 25.—Carrie Nation, finding saloon conditions worse than she expected, announced today she probably will resort to force in her temperance crusade here. She says the situation demands drastic treatment. The police warned her the first violence meant a long prison term.

### Attractive Party for Paducah Guest.

Saturday afternoon Mrs. Sue Newman, of Mayfield, entertained informally in honor of her guest, Mrs. Frank Lucas, of Paducah. It was one of the most delightful of the season's social functions. The charming hostess and her beautiful guest were radiant with hospitality. Mrs. Newman's elegant home on the corner of North and Seventh streets is well adapted for the entertainment of her friends. Among those present were: Mrs. Frank Lucas, Mrs. Joe Warren, Mrs. Albert Anderson, Miss Bernice Frost, Mrs. Parker, of Jellico, Tenn.; Mrs. James Dismukes, Mrs. John Dismukes, Mrs. John Landrum, Mrs. Ollie Mayfield, Mrs. Harry Walters, Mrs. Dow Stamper, Mrs. Ed Lucas, Mrs. Sophia Mayes, Mrs. Sue Newman.

## CHARLES BURCH

DIES THIS MORNING SHORTLY  
AFTER 10 O'CLOCK.

Gracey Self, Young Daughter of A.  
and Mrs. J. L. Self, Passes  
Away.

Mr. Charles H. Burch, 57 years  
old, died this morning at 10 o'clock  
at his home, 1025 South Tenth  
street, of consumption. Mr. Burch  
had been ill for 18 months. His  
first illness was pneumonia and it  
afterward developed into consumption. He had been a resident of this city 17 years and until two years ago was employed at the Illinois Central railroad shops as car repairer. Mr. Burch was born and reared in Union county near Morganfield and lived at that place until coming to this city. He was a devout member of the St. Francis de Sales Catholic church and a member of the Catholic Knights and Ladies of America. Mr. Burch was well known and he had a large number of friends. His death was not unexpected. His many friends and own family knew of his poor health for several weeks and twice last week he was thought to be dead, but revived.

### Root Resigns

Washington, Jan. 25.—The president today received the resignation of Secretary Root to take effect as soon as his successor is qualified. The nomination of Assistant Secretary Bacon for secretary of state was sent to the senate.

## BURGLARS BREAK INTO STORE ROOM; BACK DOOR SHAKEN

Lone Oak, Jan. 25.—(Special.)—An attempt to break into the general store of Mrs. A. M. Sanderson was averted early Sunday morning when an unknown white man was prying at the rear door. Mr. Ivan Merritt, who resides next door, heard the noise and he awakened Mr. Richard Watkins. Together with their shotguns they stole out and ran the burglar around the house. The man ran, but while climbing a fence both fired their shotguns at the burglar. There was a scream, but he did not stop running and in the dark escaped. He was tracked through the field and drops of blood proved that the burglar did not miss their victim. Nothing was secured from the store. The burglar was described as a heavy man and wore overshoes.

### Policeman's Home Visited.

Policemen are not exempt from visits by burglars. Last night at the home of Patrolman W. M. Owen, of Tenth and Ohio streets, the third attempt was made to enter the house this month. The burglar's calls are unusually early. While alone last night about 7 o'clock Mrs. Owen heard a noise at the rear door, and no response was given to her inquiry as to whom it was. A telephone call was sent to relatives, and the burglar took the hint and departed. He was tracked from where he jumped over the fence to the back porch, and then his tracks led to the street.

### His Arm Dislocated.

Maxon Mills, Jan. 25.—(Special.)—While moving lumber Saturday afternoon Mr. John Prince dislocated his left arm. The injury is not a serious one.

## WIFE OF PLANTER OBJECTS TO WILL OF HIS DEATH BED

Made Under Most Peculiar Circumstances and Deemed  
Not Valid.

County Judge of Calloway  
Buys Blood Hounds.

### LITTLE BOY BREAKS HIS JAW

Murray, Ky., Jan. 25.—(Special.)—Exceptions to the probate of the will left by Eli Alexander, a wealthy planter who died January 16, were entered this morning when the document was filed for probate in county court today. The petition was filed by S. H. Dees and F. C. Allen as next friends of Mrs. Ella Alexander, wife of the decedent, who objects to the probate of the instrument because it is considered unfair to herself and to some of her children. Alexander left an estate valued at \$30,000.

The will that he left was made under most peculiar circumstances, according to those who witnessed the transaction, and has been the subject of much comment here. Alexander was declared to be in a dying condition and his family was summoned to attend his bedside during his last moments. When his wife entered the room she screamed and the sound of her voice caused the sick man to awaken from his seeming stupor and he arose in the bed and called for some one to write his will. A local attorney, who was present, began to write as dictated, and after the instrument was signed, Mr. Alexander again lapsed into unconsciousness, but lived until the following day.

### County Buys Bloodhounds.

A pair of trained Siberian bloodhounds have been purchased for the county by Judge Thomas Patterson from a kennel owner at Dyersburg, Tenn. The hounds will be sent here this week for a thorough test, as an iron-bound contract was entered into that the dogs should give satisfaction.

### The Animals Will be Used to Run Down Incendiaries, Night Riders and All Kinds of Criminals.

They will be owned by the county and will be kept at Murray.

### Craig Karr Falls.

Craig, 10-year-old son of J. C. Karr, who recently moved here from Paducah, fell down a flight of stairs Saturday and broke his jawbone. Physicians reduced the fracture and the boy will recover.

### Another Mine Horror

Cumberland, Md., Jan. 25.—Three were killed and ten injured when the cars on an incline at the Piedmont (W. Va.) coal mine broke loose and collided with others at the bottom.

### Abruzzi Again.

London, Jan. 25.—The Globe's Rome correspondent says definitely today the duke of Abruzzi has abandoned his Himalayas expedition in order to reopen negotiations with Katharine Wilkins.

### POWER MONOPOLY GRANTED BY BILL OF CONGRESSMAN

Washington, Jan. 25.—Speaker Whalen, of the Michigan legislature, and a number of other prominent men from Michigan, filed a formal protest with the president, saying the bill introduced by Representative Lorimer evidently is intended to conserve the water supply but in reality grants a monopoly to the Michigan and Lake Superior Power company of an enormous water power at "Boo." The company is owned by the Wall Street interests.

JANUARY TRADE PROVES DULL

The event of the week has been the... The average man when he pays 15c for one application for a hair tonic thinks he is paying a pretty good price, but nevertheless the barber isn't making as much money as his customer supposes. The ready-to-use quinine hair tonics of real merit are expensive preparations costing \$1.00 and \$1.50 for small bottles. But there is one progressive barber who has found a way to satisfy his customers and more than "break even" on the use of a quinine hair tonic. He makes it himself, using only one ounce of Heta Quinol and half a pint of alcohol and half a pint of water. This gives him a genuine and excellent quinine hair tonic for about one-third the usual cost. His own preparation pleases his customers better than the higher-priced tonics he formerly used. There is nothing better than Heta Quinol for the hair, for it keeps the scalp in a clean and healthy condition, removes dandruff, and makes the hair soft and luxuriant. This home-made Heta Quinol hair tonic has stopped falling hair on many of the barber's patrons. He has given his recipe to several of them and his customers are now making the tonic themselves. The materials can be procured at any drug store. Simply shake them well together and they are ready to use.

Try This for Your Stomach.  
Get from your druggist one ounce Compound Tincture of Cinchona, one ounce Peppermint Compound and half a pint of sherry wine; mix these in a bottle and take a teaspoonful before meals and at bedtime in a little water. It is claimed that this simple mixture will cure sour stomach, belching gas and indigestion.

Little weight with many that no tariff changes are possible within six months and perhaps even twelve months; or that the tariff will be revised by his friends and at a time when our industries were never so little in need of protection. Some of our industries have been so over-cold for years that the more suggestions of the withdrawal of support causes a shiver. Time, however, will show that no injurious changes will be made and that an ample period will be given for readjustment. With the 14th of March a new administration comes in, and Mr. Taft will undoubtedly call a special session of congress to consider tariff changes. Discretion may easily last until June or July, and new tariff acts do not usually go into effect until six months after passage. Judging by developments at recent tariff hearings a stiff fight will be made against injurious reductions, and because of weak Democratic opposition such efforts are likely to succeed. Nevertheless, in the eyes of many it will be a period of uncertainty and postponement, and right or wrong, such ideas will temporarily govern. Meanwhile, some of our largest industrial concerns dependent on the tariff are going along accepting all the orders they can secure without regard to tariff possibilities. It is also significant that importers, shippers are unusually bare of supplies; and large imports are expected in spite of possibly lower duties. The brightest spot in business at present is in cotton goods, for which there has been a good demand, especially from the interior. The prevailing indications, however, are for a period of quiet and readjustment in general business which may last until the tariff is settled, or some idea is obtainable regarding the next harvest.

Operations on the stock exchange dwindled down to one-half their usual volume. Many big operators absented themselves from the "street" and the investment demand suddenly subsided; new bond issues going much more slowly than two weeks ago. There is danger of congestion in the latter respect, the new issues since January 1 having been out of all proportion to capacity of the investment demand. Some time will be required for the absorption of new issues, not only in New York, but in London, Paris and Frankfurt, where the recovery has not been so violent as in the United States. Foreign financial markets, it should be borne in mind, have strengthened themselves at our expense by a much larger return of our securities than has been generally appreciated.

## News of Theatres

"The Smart Set."  
"The Smart Set," the peer of all theatrical comedies, has a new offering this season. It is a comedy-drama with music and entitled "The Black Politician," or "The Mayor of Marco," and will be the next attraction at The Kentucky.

"A Knight for a Day."  
The performance of "A Knight for a Day" is a snappy, brisk, rushing one. Gus Schiller's touch is seen in every movement of principals and chorus. Everybody and everything rushes and scampers from start to finish. Little girls work vigorously while tall girls from varicolored backgrounds and at the close of each act is some new electric effect that romps the audience to unqualified enthusiasm.

Jefferson in "The Rivals."  
The name of Jefferson and the fame of Richard Brinsley Sheridan's fine old classical comedy, "The Rivals," are inseparably linked together. William W., internationally famous as "Bob Acres," is warmer hearted and more charmingly vain and swaggery than even the author could wish; and Joseph, as "Sir Lucius O'Trigger," is repeating the success his impersonations won years ago when he succeeded the late W. J. Florence. The Jefferson and "The Rivals" come to The Kentucky soon.

"A Merry New York Maid."  
Robert Garnella, May Shirk, Kate Edna Garnella, Frank Forrest, Jack Stockton, Walter Edson and a first-class company, will appear at The Kentucky Friday in "A Merry New

York Maid." The production has been made carefully, and the piece bears the evidence of the work that has been spent on it. The entire production is, stated by Mr. Max Oberlander, of the Metropolitan theater, New York, making the piece as nearly perfect as possible.

Quaint.  
Prof. Brander Matthews, the brilliant writer and teacher, was discussing literary quaintness at Columbia in illustration of the quaint he said: "A little girl I know was very bad one day. She was so bad that, other corrections failing, her mother took her to her room to whip her."

"During this proceeding the little girl's older brother opened the door and was about to enter. But in her prone position across her mother's knee the little girl twisted her head and said, severely: "Kiddle go out! Can't you see we're busy!" Washington Star.

TOBACCO

Bohmer's Warehouse  
9th & Harrison. Paducah, Ky. Old Phone 72

Empty hogsheds furnished free to parties wishing to ship their tobacco by rail or river

Tobacco is unbroken in large, flat baskets, each grade to itself, weighed and receipt given owner, showing number of draft and pounds thereof. A corresponding ticket is placed on each pile. The highest bid is written on ticket and, should owner accept same, by presenting at office receipt previously given, the cash is handed over.

Should the bid offered not be satisfactory, the tobacco can be offered the next day or at any other time thereafter.

It costs absolutely nothing to offer your tobacco unless bid is accepted, in which case we charge 15 cents per hundred pounds and 2 cents on the dollar.

The greatest demand among manufacturers and dealers is for loose tobacco and, since it will bring more money offered loose, why go to the expense of having prized, stored, insured, inspected and looked after?

You will get more money for your tobacco when offered to the highest bidder in open competition with twenty-five buyers trying to buy than when you expect or require one buyer to buy millions of pounds without competition at a round price.

**Daily Thought.**  
Optimism is the faith that leads to  
achievement. Nothing can be done  
without hope. —Helen Keller.

The country is again interested in  
the Charleston conference.

How could Beach Hargula be so  
careless as to drop the muzzle of his  
revolver that-a-way.

"Rom. Salmon, is being urged to  
run for state senator from the Hop-  
kins-Christian district. Count the  
Messenger for Rom," says the Bow-  
ling Green Messenger.

A salmon run is said to be very  
interesting.

In vetoing a bill to grant a per-  
petual right to a James River power  
plant, President Roosevelt stated  
that the present extravagance will  
waste the fuel, petroleum and gas  
supply, so that within a generation  
water power-produced electricity will  
be the key to the heating, lighting  
and transportation situation. He said  
the country should carefully safeguard  
its control over water rights.

A combination of interests controlling  
the water power plants would  
have the people at its mercy for all  
time to come.

## THE COUNTY HIGH SCHOOL.

County Superintendent Billington's  
reason for preferring a county high  
school in the country to an arrange-  
ment for the privilege of the Paducah  
high school is insufficient. It is not  
important that some father fears to  
send his child to the wicked city of  
Paducah to school. It might be im-  
portant if Professor Billington thinks  
Paducah an improper place to send  
children to school. He might find  
other parents who prefer to send their  
children to school, where they can  
find a convenient place to board, pav-  
ments to walk on in bad weather, a  
well equipped school with a competent  
faculty, the use of a public li-  
brary, and such other advantages as  
a city offers over the country for ac-  
quiring a well rounded education.

We do not believe that Professor  
Billington thinks the county high  
school will compare with the Paducah  
high school in equipment, latitude  
or general efficiency. It will be no  
handier for remote residents of the  
county, than will the Paducah high  
school. If there is nothing in the  
way of adopting Judge Lightfoot's  
proposition to make arrangements  
for the privilege of the Paducah high  
school, more than the prejudice of  
some parent, there isn't much in the  
way. Professor Billington will find  
more objection to his high school in  
the country, we think, if he intends  
to consult the whims of a majority  
of the citizens.

The best plan for the county is to  
send the rural graduates to the Padu-  
cah high school, at least until there  
are sufficient pupils to warrant a  
county high school of standard excel-  
lence. It will not be fair to the farm-  
ers to heap the special tax on them  
for a poor quality of school, when  
they can have the advantages of a  
better one for one-tenth the cost.

It will be better for those county  
youths to come to the city to get their  
education. It will be better for the  
city youths to have the country  
boys and girls among them. They

will grow up to understand one an-  
other better.

## NAVAL GRAFT.

In an article on the navy in the  
January McClure's, George Kibbe  
Turner says: "We have twelve navy  
yards and we have spent \$110,000,-  
000 building and keeping up navy  
yards according to the state rights  
principle of distributing the naval ap-  
propriations. Five of them have't  
the principal thing a navy yard is  
built for—a dry dock big enough to  
hold the battle ships we are now com-  
pleting. Two of them have one fine  
dock apiece, which no battleship can  
reach at any time; and three of them  
own one costly dock apiece, cut off  
from the sea by shoal waters, which  
battleships can only cross at certain  
times in the tide; and while, if they  
were waterlogged in time of war, they  
could not cross at all."

Since a fleet cannot separate in  
time of war, nor lay outside a harbor  
waiting for a tide, this means that in  
case of war the United States has no  
place in which to repair her ships.

Turner says the only docks needed  
on the Atlantic coast are at New  
York, Norfolk and Guantanamo, Cuba,  
key to the Panama canal; and from  
Maine to Louisiana navy yards are  
built against the protest of naval men,  
and upon the insistence of senators.  
Speaker Cannon will not appoint to  
his naval affairs committee, congress-  
men residing in seaboard states, so  
Senator Hale and his colleagues divide  
the spoils. Figures show that  
navy yards which cost \$5,000 to \$10,-  
000 worth of work in a year are  
maintained at the expense of hun-  
dreds of thousands of dollars with an  
additional \$50,000 apiece for military  
protection. Navy officers say the  
country could save \$40,000,000 an-  
nually by closing nine of the navy  
yards.

The reason for this waste is not  
far to seek. Senators represent  
states, and congressmen districts, in-  
stead of the United States. The sen-  
ators are seeking to secure navy  
yards for their states so that the  
yards of the men employed in them  
may be spared there.

We expect our congressman to get  
his share of appropriations for our  
district, and we shall, of course, ex-  
pect Senator Bradley to see to it that  
Kentucky comes in for her share.

Griff is not in the federal govern-  
ment; it is in the heart of every  
American citizen.

## A CRY OF DISTRESS HEARD 200 MILES.

The instruments attached to the  
wireless stations on steamboats ves-  
sels for 200 miles around Nantucket  
ticked off laconically the message  
that the liner Republic was rammed  
amidship and was about to sink with  
all on board, and five minutes later,  
every ship, which received the mes-  
sage, was on her way to the point  
designated. The vessel sank last  
night, but every soul had been re-  
scued. It was a marvellous demon-  
stration of the value of man's mas-  
tery of the elements, when that cry  
of distress came through the ether.  
A startled scream of terror strikes a  
responding tremor in the heart of  
the hearer, but what must have been  
the sensation of the telegraph oper-  
ators on the ships when their instru-  
ments began clicking off that weird  
message?

## SOME STORIES AROUND TOWN

It has been nearly twelve years  
since any one has been sentenced to  
death in the McCracken county court  
house until two weeks ago when  
George Freeman and Jonas Smith,  
both colored, were sentenced to hang.  
The seriousness of the death sentence  
can never be told except by those who  
have been there, although despite the  
seriousness there is at times a bit of  
comedy in the sentencing. When-  
ever the judge asks the prisoner if he  
has any legal reason why he should  
not be hung almost invariably there  
is a ready answer given, although it  
is rarely legal, and of course the judge  
passes the sentence the same as if the  
quaking prisoner had not spoken.

County Judge R. T. Lightfoot tells  
the good story of an old German, who  
was sentenced to be hanged in one  
of the counties in Illinois. The man  
was a big, strapping fellow, ignorant  
but with the blunt humor of his coun-  
try. He had committed a brutal murder,  
and on his first trial a verdict of  
death had been returned. Finally the  
day for the sentence, and the Ger-  
man was led before the judge, who  
was known as a man of strong nerve.  
Solemnly the judge repeated that the  
murderer must hang by his neck until  
dead, dead, dead, and then he asked  
the German if he had anything to say.

A few moments of absolute silence  
passed when the old German shook  
his huge frame, and said: "I shoud  
kant stand hit." Nothing more was  
said, but the pitiful manner in which  
he repeated the broken English stirred  
everyone in the court room. A pa-  
per was gotten up asking the govern-  
ment to commute the sentence of death  
to life imprisonment, and the judge  
and jury signed the paper. In a  
few weeks the judge had the pleas-  
ure of commutating the sentence to  
life imprisonment, and he appeared  
happy, for that simple statement of  
the German had made the judge his  
fast friend.

The vault in the circuit clerk's  
office at the court house is one of the  
best places to hear stories in the city.  
It is in here that all of the attorneys  
when not busy with some case or

trial, lounge and enjoy a smoke. In  
the vault they are within a few paces  
of the court room, and make it a club  
while the court is in session, for the  
smoking is forbidden in the court  
room. While enjoying puffs at a cigar  
or pipe some of the most astute law-  
yers join in the fun.

## Disolution, Distillation.

A man who had made his fortune  
in the west returned to his boyhood  
home in Ohio to spend it.

"What's become of John Falvey?"  
he asked of some old friends he met  
at the hotel.

"Oh, he's dead. Drank himself to  
death. We buried him two years  
ago."

"Well, I declare. So old John is  
gone. And where is Jim Robinson?"  
he asked.

"Oh, yes; we buried him three  
years ago. He drank himself to  
death, too."

"You don't tell me. And where  
is old Peter Mearean? Has he passed  
over?"

"Yes," said one of the boys folks.  
"Old Peter has been gone about a  
year."

"You buried him a year ago.  
Well, well."

"Oh, no," was the reply. "We  
didn't bother to bury him. We just  
poured him back into the barrel."—

## Something New on the Carpet.

Natural History.  
A certain father who is fond of put-  
ting his boys through natural history  
examinations is often surprised by  
their mental agility. He recently  
asked them to tell him "what animal  
is satisfied with the least nourish-  
ment." "The moth!" one of them  
shouted confidently. "It eats nothing  
but holes."—Youth's Companion.

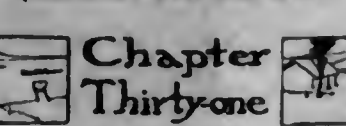

## Sophy of Kravonia.

By ANTHONY HOPE.

Author of "The Prisoner of Zenda."

Copyright, 1908, Anthony Hope  
Hawkins.

(Continued from Last Issue)

IN the end they started thirty strong,  
including Sophy herself. There  
were the three Englishmen—Dun-  
stanbury, Basil Williamson and  
Henry Brown, Dunstanbury's servant,  
an old soldier, a good rider and shot.  
The rest were sturdy young men of  
Volens, once destined for the ranks of  
the Prince of Slavna's artillery. Lukovitch  
and Peter Vassilp led them. Not  
a married man was among them, for  
to his intense indignation, Zerkovitch  
was left behind in command of the  
city. Sophy would have this so, and  
nothing would move her. She would  
not risk causing Marie Zerkovitch to  
weep more and to harbor fresh fears  
of her. So they rode "without incum-  
brances," as Dunstanbury said, laugh-  
ing. His spirits rose inexpressibly  
as the moment of action came.

Their horses were all that could be  
mustered in Volens of a mettlesome  
dash. The little band paraded in  
the market place on Friday after-  
noon. There they were joined by So-  
phy, who had been to pay a last visit  
to monseigneur's grave. She came  
among them sad, yet seeming more  
serene. Her spirit was the happier for  
striking a blow in monseigneur's name.  
The rest of them were in high feather.  
The prospect of the expedition went  
far to blot out the tragedy of the past  
and to vello the threatening face of  
the future. As dusk fell they rode out  
of the city gate.

Miklevall lies twenty miles up the  
course of the river from Slavna, but  
the river flows there nearly from north  
to south, turning to the east only four  
or five miles above the capital. You  
ride, then, from Volens to Miklevall  
almost in a straight line, leaving Slavna  
away on the left. It is a distance of no  
more than thirty-five miles or there-  
abouts, but the first ten consist of a  
precipitous and rugged descent by a  
bridle path from the hills to the valley  
of the Krath. No pace beyond a walk  
was possible at any point here, and for  
the greater part of the way it was  
necessary to lead the horses. When  
once the plain was reached there was  
good going, sometimes over country  
roads, sometimes over grass, to Mi-  
klevall.

It was plain that the expedition  
could easily be intercepted by a force  
issuing from Slavna and placing itself  
astride the route; but, then, they did  
not expect a force to issue from Slavna.  
That would be done only by the  
orders of General Stenoviev, and Les-  
page had come back to Slavna to tell  
the general that his message was being  
considered—very carefully considered.  
In Volens, General Stenoviev, if they  
understood him rightly, would not  
move till he heard more. For the rest  
risks must be run. If all went well,  
they hoped to reach Miklevall before  
dawn on Saturday. There they were to  
lie in wait for Stenoviev and for the  
big guns which were coming down the  
Krath from Kolskol to Slavna.

Lukovitch was the guide and had no  
lack of counsel from lads who knew  
the hills as well as their sweethearts'  
faces. He rode first, and while they  
were on the bridge path, they followed  
in single file, walking their horses or  
leading them. Sophy and Dunstanbury  
rode behind, with Basil Williamson  
and Henry Brown just in front of  
them. In advance, some hundreds of  
yards, Peter Vassilp acted as scout,  
coming back from time to time to ad-  
vice Lukovitch that the way was clear.  
The night fell fine and fresh, but it  
was very dark. That did not matter.  
The men of Volens were like cats for  
seeing in the dark.

The first ten miles passed slowly and  
tediously, but without mistake or mis-  
hap. They halted on the edge of the  
plain an hour before midnight and took  
rest and food. Each man carried provi-  
sion for ten days. Behind them now  
rose the steep hills whence they had  
come, before them stretched the wide  
plain, away from their left was Slavna,  
straight ahead Miklevall, the goal of  
their pilgrimage. Lukovitch moved  
onward, seeing that every man gave  
heed to his horse and had his equip-  
ment and his weapons in good order.  
Then came the time to remount, and  
between 12 and 1, with a cheer hastily  
suppressed, the troop set forth at a  
good trot over the level ground. Now  
Williamson and Henry Brown fell to  
the rear with three or four Volensians  
lest by any chance or accident Sophy  
should lose or be cut off from the main  
body. Lukovitch and Peter Vassilp  
rode together at the head.

To Dunstanbury that ride by night  
through the spreading plain was won-  
derful, a thing sufficient in itself with-  
out regard to its object or its issue.  
He had seen some service before, and  
there was the joy of that. He had  
known the comradeship of a bold en-  
terprise; there was the exaltation of  
that. He had taken great risks before;  
there was the excitement of that. The  
night had been now called him to the  
rear with three or four Volensians  
lest by any chance or accident Sophy  
should lose or be cut off from the main  
body. Lukovitch and Peter Vassilp  
rode together at the head.

What thoughts dwelt in her? Did  
she ride to death and was it a death  
she herself courted? If so, he was  
sworn in his soul to thwart her, even  
to his own death. She was not food

for death, his soul cried, passionately  
protesting against that line, that im-  
poverishment of the world. Why had  
they let her come? She was not a wo-  
man of whom that could be asked,  
therefore it was that his mind so hung  
on her with an attraction, a fascina-  
tion, an overbearing curiosity. The  
men of Volens seemed to think it  
natural that she should come. They  
knew her, then, better than he did!

Save for the exchange of a few  
words now and then about the road  
they had not talked. He had respected  
her silence. But she spoke now and  
to his great pleasure, less sadly than  
he had expected. Her tone was light  
and witnessed to a whimsical enjoy-  
ment which not even memory could  
altogether quench.

"This is my first war, Lord Dun-  
stanbury," she said. "The first time  
I've taken the field in person at the  
head of my men!"

"Yes, your majesty's first campaign.  
May it be glorious!" he answered, suit-  
ing his tone to hers.

"My first and my last, I suppose.  
Well, I could hardly have looked to  
have even one—in those old days you  
know of—could I?"

"Frankly, I never expected to find  
my commission as an army officer from

"This is my first war, Lord Dunstan-  
bury," she said.

you," he laughed. "As it is I'm break-  
ing all the laws in the world, I sup-  
pose. Perhaps they'll never bear of it  
in England, though."

"Where there are no laws left you  
can break none," she said. "There are  
none left in Kravonia now. There's  
but one crime, to be weak, and but one  
penalty, death."

"Neither the crime nor the penalty  
for us tonight," he cried gayly. "Queen  
Sophy's star shines tonight!"

"Can you see it?" she asked, touch-  
ing her cheek a moment.

"No, I can't," he laughed. "I forget;  
I spoke metaphorically."

"When people speak of my star, I  
always think of this. So my star  
shines tonight? Yes, I think so—shines  
brilliantly before it sets! I wonder if  
Kravonia's star, too, will have a set-  
ting soon—a stormy setting!"

"Well, we're not helping to make it  
more tranquil," said Dunstanbury.

The Times, of Thomasville, Ga., contains the following notices of social affairs in honor of popular Paducah girls:

"Monday evening Mr. James S. Hopkins entertained at a dinner party at the Elks' club for Mr. and Mrs. J. S. Montgomery, Jr., and their guests, Misses Roberts, Asher and Winstead. The grill room of the club was used for the occasion and it was beautifully arranged especially for this dinner. The room was strung with streamers of ivy, coming from each corner of the room to the center of the table and from the end of this below the chandelier was hung a beautiful bunch of white roses. Immediately below as a centerpiece was a large bunch of Duches roses, around which at the four corners were glass candle sticks with pink candles and shades. Over the whole scene from the electric lights above, a soft glow was shed from pink shades. At the conclusion of the dinner the whole party were shown to the hall room of the club and for an hour an informal dance was held."

"A very congenial party of the young people of Thomasville were guests of Mr. W. J. Hammond, at the old homestead of Uncle Frank Jones, about five miles from town, Wednesday evening. During the evening a very delicious egg-nog and club supper was served. Later in the evening the negro orchestra from town came out and the old-fashioned dances were enjoyed until 10 o'clock, when the crowd repaired to town, each one sure of the fact that this was one of the most delightful affairs ever given at the old place. Those present were: Mr. and Mrs. J. S. Montgomery, Jr., Misses Corinne Winstead, Willie Hlanche Asher, Mary Louie Roberts, Lucy Waters, Eva Gardner, Marianne Watt, and Messrs. W. I. MacIntyre, J. A. Mitchell, W. J. Hammond, Arthur Little, John Watt, Will and Jim Hopkins, H. H. Ingram and E. R. Jerger."

It was forcible, optimistic and helpful, the kind of sermon calculated to inspire and cheer work-a-day humanity.

Deep interest is being manifested. The services will continue all the week. Dr. Ramsey will preach tonight at 7:30. ## A MOTHER'S PLEA.

Trained Nurse Offers Cure for Constipation.

"What in the world can I do for my three children, who, it seems, have inherited constipation and all the evils, such as vomiting, stomachache, headaches, dizziness, languor, fever and thinness of flesh? I have tried dieting and breakfast foods, fruits and patent medicines; but the trouble grows worse and I am nearly distracted."

This mother voices the experience of thousands. A trained nurse and well-known matron of one of our largest eastern hospitals offers the following as the best and most reliable harmless remedy that is known:

Just go to any well-stocked drug store and get "one ounce compound essence cardiol," and "two ounces aromatic sypyr rhubarb." Mix all in a bottle, shake, and adults take from 1/4 to 2 tablespoons after each meal, while children gleefully take from five drops to a teaspoonful, according to age. Use this freely whenever occasion demands.

## CUBA PROSPEROUS AND PEACEFUL

Says Provisional Governor Magoon in Report.

Cost Over \$5,000,000 to Rescue Island From Insurrection—Great Improvements.

## WEATHER CAUSES TROUBLE

Washington, Jan. 25.—In his second annual report for the year ending December, 1908, to the secretary of war made public today, Charles E. Magoon, governor of the provisional administration of the government of Cuba which will come to an end with the inauguration of President Jose Miguel Gomez next Thursday, states that the provisional government of Cuba has proceeded satisfactorily during the past year. During the two and one-half years' existence there has been a condition of peace and tranquility in the island that is creditable to the highest degree. All of the laws which the peace commission of 1906 deemed indispensable have been either enacted or are now so far advanced in process of enactment that they will become laws before the termination of the present government. In addition many other laws essential to the welfare of Cuba have been enacted. During the past year two important elections have taken place, namely the municipal and provincial election and the national election, both of which were conducted without confusion or disorder.

The expenditure made by the United States for the intervention and the extra cost of the army of Cuban pacification maintained in the island during the existence of the provisional government amounted on June 30, 1908, to \$5,311,822, and this amount will be materially increased before the termination of the provisional government and will be further increased by the withdrawal and distribution of the troops now in Cuba.

## Cause of Trouble.

Climatic conditions in Cuba have caused an industrial development which annually produces the labor crisis which is of great concern. During the six months of the dry season Cuba is a hive of tremendous industrial activity. There are not enough resident laborers to supply the demand. The want is met by laborers coming from the other islands of the West Indies, the Canary Islands, Spain, Italy and other European countries. A large majority of these transients return home at the close of the season, taking with them the money they have earned and saved. This annual drain is a serious disadvantage to Cuba. The advent of the rainy season terminates this industrial activity. The field hands are discharged, and many thousands of men are out of work.

The danger of this annual industrial inactivity in Cuba was increased during the last two years by reason of unfavorable market conditions at home and unfavorable market conditions abroad. The climatic conditions for the past two years have been ideal and the product is the best in every way for many years. The sugar industry suffered also during those two years, from climatic conditions and financial disturbances. The cattle industry,

"SOCIAL WHIRL" With Coffee-Insomnia and Collapse.

It seems difficult for some of us to be good all of the time, but it pays after all.

Even a model school teacher, on a vacation, may drop into excesses in the way of overeating, late hours and black coffee to add to the irritation of the nervous system.

"I am a teacher in the University," writes a lady in Salt Lake City, "and hold a responsible and trying position. For months before my collapse, I rose completely dazed, but braced up on a cup of coffee."

"The summer vacation I spent in the east, where I participated in a whirl of social affairs. There was scarcely an evening when I did not drink strong coffee and afterwards spent hours awake."

"Finally the break-down came and I have spent hundreds of dollars and almost two years of suffering trying to mend it."

"Every doctor I had insisted on my giving up coffee. I tried Postum prepared, at first, as it ought to be, and I did not care for it. Since getting it right I have found it wonderfully beneficial."

"The benefits derived from Postum the past year have been gradual but sure. The effect on my stomach was immediate. It was the only thing except the white of egg that did not distress me."

"There is no doubt that coffee is injurious to many even in small quantities. To one who will make the trial, there is no doubt that Postum is decidedly beneficial and a delicious drink if made according to directions on package."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

## MORE PINKHAM CURES

Added to the Long List due to This Famous Remedy.

Camden, N.J.—"It is with pleasure that I add my testimonial to your already long list—hoping that it may induce others to avail themselves of this valuable medicine, Lydia E. Pinkham's Vegetable Compound. I suffered from terrible headaches, pain in my back and right side, was tired and nervous, and so weak I could hardly stand. Lydia E. Pinkham's Vegetable Compound restored me to health and made me feel like a new person, and it shall always have my praise."

—Mrs. W. P. VALENTINE, 902 Lincoln Avenue, Camden, N.J.

"I was a great sufferer from a female disease. The doctor said I would have to go to the hospital for an operation, but Lydia E. Pinkham's Vegetable Compound completely cured me in three months."

—Miss S. A. WILLIAMS, R. F. D. No. 14, Box 30, Gardiner, Me.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, indigestion, dizziness, and nervous prostration. It costs but a trifle to try it, and the result is worth millions to many suffering women.

## People Have Been Patient.

The serious difficulty with which the commerce and industries of the land were obliged to contend has been the enforced liquidation of private indebtedness. Two things have been surprising—the fortitude and good nature with which the Cubans have borne these ills; and the small number of forced sales of property that has taken place. The signs that this period of depression has come to an end are numerous and incontestable.

## Seven Years of Proof.

"I have had seven years of proof that Dr. King's New Discovery is the best medicine to take for coughs and colds and for every diseased condition of throat, chest or lungs," says W. V. Henry, of Panama, Mo. "The world has had thirty-eight years of proof that Dr. King's New Discovery is the best remedy for coughs and colds, in grippe, asthma, hay fever, bronchitis, hemorrhage of the lungs, and the early stages of consumption. Its timely use always prevents the development of pneumonia. Sold under guarantee at all druggists, 50c and \$1.00. Trial bottle free."

Great Crowd Hears Him Speak at the Broadway Methodist Church Sunday Afternoon.

More than 800 people heard Dr. Crossfield, president of Transylvania university, lecture at the Broadway Methodist church yesterday afternoon on "Ideals in Education."

Besides the chorus choir, Mrs. Lola Wade Lewis and Professor Sturgis sang beautiful solos. Professor Carngay presided and the speaker was introduced by Dr. M. E. Dodd, pastor of the First Baptist church. The benediction was pronounced by the Rev. C. E. Jackson, pastor of the Fourth Street Christian church.

Dr. Crossfield's address was a plea for more general education. His remarks were directed to parents, urging them to liberally educate their children; by all means to send them through the common and high schools, and if possible give them college training.

## A Wise Rustle.

Once a denizen of the up-state regions, where whisks grow in plenty and umbrellas hulk at will, decided to visit New York. But he decided to visit the bewitching metropolis quite as a man of the world—not to be taken in by the wicked men, who, as he understood, made a business of deceiving the guileless up-staters. Hence he arrived at the Grand Central looking very, very wise, and proceeded, first of all, to visit the collection of wax figures at the Eden Musee. He was engaged in looking critically at one of the most lifelike groups on exhibition there, when a policeman suddenly plucked him by the sleeve. The up-stater turned.

"You mustn't smoke here," said the policeman, severely. A look of wisdom beyond the power of words to describe came over that up-stater's face. Continuing brazenly to smoke, he remarked: "Tut, tut. Don't you think I know you're made of wax?"

## GLASS PLANT

SOLD SATURDAY AFTERNOON TO W. F. PAXTON.

Only Two Bidders and Ground and Plant Bought \$8,500—Bankrupt Sale.

Pursuant to the orders of the court the plant of the Paducah Glass company in Mechanicsburg, was sold Saturday afternoon by Trustee A. J. Decker at public auction. There was little interest in the sale and there were only two bidders. The plant was sold as a whole to Mr. W. F. Paxton, president of the Citizens Savings bank, for \$8,500. Mr. Will H. Parley was the other bidder. It is not known what will be done with the plant.

The auction was attended by a handful of persons, who wanted to see how the sale went. The real estate was offered for sale first and W. F. Paxton purchased it with a bid of \$8,000. The machinery, miscellaneous material on hand, and a tank of glass brought \$150 when offered separately. After the piecemeal sale, the plant was offered for sale as a whole, and Mr. Paxton purchased it.

## How Is Your Digestion?

Mrs. Mary Dowling of No. 228 8th Ave., San Francisco, recommends a remedy for stomach trouble. She says: "Gratitude for the wonderful effect of Electric Bitters in a case of acute indigestion, prompts this testimonial. I am fully convinced that for stomach and liver troubles Electric Bitters is the best remedy on the market today." This great tonic and alternative medicine invigorates the system, purifies the blood and is especially helpful in all forms of female weakness. 50c at all druggists.

## How It Feels to Be Shot.

Mr. Henry said that when the attempt on his life was made, and the bullet struck him, he experienced a peculiar sensation. "I first thought the building had collapsed," continued the doughty lawyer. "I felt myself upon the verge of fainting, but I pulled myself together, and then I felt as if somebody had struck me in the face."

"Involuntarily I put my hand to my face, and feeling the blood flowing freely, I demanded to know who struck me. I was angry and wanted to get at him, whoever he was."

"Some one told me that I had been shot and that Foley had arrested my assailant. Foley was my bodyguard. I was easier when I was told that the man who had fired the shot had been arrested. I feared that if he were still at large he might flush me."

## EXAMINATIONS IN PUBLIC SCHOOLS

Begin This Morning in All  
Departments.

New Plan Is Working Satisfactorily  
and Many Are Excused for  
General Excellence.

### HIGH SCHOOL GRADES GOOD.

Examinations began this morning in the city schools with a good attendance and the school officials look forward to a close of one of the most successful semesters of the school history. Although the threatened epidemic of scarlet fever and diphtheria made a short attendance for about two weeks, but aside from this the schools have been well attended.

The school children will finish the examination Wednesday when a holiday will be enjoyed until Monday. The second semester will begin. All the pupils will return Friday afternoon at 3 o'clock, and the credits for the first semester will be given.

The program for examinations in the high school is: Monday morning—science 1B; German, 4A; Latin, 4B; mathematics, 2A and 2B; English, 4A; history, 2A; history, 1A; science, 4B. Monday afternoon—English, 1A; English, 1B; chemistry, 3B; history, 2A; Latin, 2B; history, 4A.

Tuesday morning—mathematics 1B; Latin, 1A; English, 2B; English, 3A; French, 3B; history, 3B; science, 4A. Tuesday afternoon—history, 1B; English, 3B; Latin, 2A; history, 3A; science, 1A; science, 2B; English, 2A; chemistry, 3A.

Wednesday morning—mathematics 1A; French, 3A; mathematics, 2B; mathematics, 3A; mathematics, 4A. Wednesday afternoon—German, 1B; German, 1A; German, 2B.

Many Are Excused.  
More students were excused from examinations this semester than since the method of excusing pupils who attain a certain per cent has been inaugurated. In the high school about 20 per cent of the students were excused, and more accurately 30 students were excused from every examination out of the 100 who attend the school regularly. While there are no reports on which to base an estimate, Superintendent J. A. Carnegie estimates that the per cent will run as high in the grades as in the high school.

Nearly every student was excused from taking the examination in one or more subjects. Since adopted the plan has stimulated the students to better work, and has practically eliminated the drone in the school. Superintendent Carnegie was pleased with the showing, and said that the method has given satisfaction in every grade, and he felt like the benefits would increase.

The students in the high school excused from all examinations due to high per cents were: Jessie Acker, Stella Anderson, Ruby Bessie, Helen Burkholder, Margaret Carnegie, Julia Dabney, Ina Darnell, Pauline Baker, Marjorie Flegle, Annabel Granger, Pauline Hank, Hattie Hazotte, Ola Johnson, Lola Kelly, Mary Kennedy, Ruth Koegel, Ruth McClesney, Edna Mooney, Mildred Piper, Marjorie Piper, Ellen Rucker, Nina Savage, Clara Smith, Rebecca Smith, Elsie Speck, Grace Stewart, Lorraine Sutherland, Virginia Whren, Elizabeth Weemer and Jacy Harper.

Foregoing is the official standing of the city basketball league. The officials have decided not to grant a victory to the Chess, Checker and Whist quintet over the five of the D. A. D., but will have the game played off. Several members of the D. A. D. team were sick, and the officials gave the Chess team the game by forfeit, but the officials were appealed to and failed to sustain the forfeit. The decision places the teams in a dead-end and cut down the lead of the C. C. & W. team.

Wednesday night the Knights of Columbus and the Chess, Checker and Whist teams will battle, and between halves the D. A. D. team and the Light and Power boys will play. The double-header will prove interesting. Friday a second double-header will be played between the Knights of Columbus and the High school, and the Light and Power and the Elks boys. ## REVIVAL CLOSES

MAGNIFICENT MEETING HELD  
AT FIRST CHRISTIAN.

Dr. Crossfield and Professor Sturgis,  
Singing Evangelists, Have Done  
Fine Work.

It was a magnificent crowd that packed every part of the First Christian church last night. Aisles, vestibules, balcony and all available standing room was occupied and scores were turned away for want of room. The singing and the sermon both moved the great congregation as people are seldom moved.

President Crossfield is a great evangelist and a princely man. He preaches the truth in love and presents the great themes of eternal moment in such a way as to give no offense to sinner or saint and at the same time arouses the consciences of men and moves them to earnestly consider the claims of Jesus. An classes of our people were charmed by the personality of the man and impressed by his sincerity and supreme desire to better their condition.

Professor Sturgis has few, if any, superiors as a soloist and leader of song. His large chorus and his sunbeam choir evidenced the skill of a master leader, and the singing was an inspiration in all the services. Mrs. Burns, the organist of the church, presided at the organ and the piano during the revival and the evangelists say they have never had a better accompanist in any of their revivals.

In switching from one song to another, often requiring instant transposition, there was never a break. Miss Lucile Harth, accompanist for the sunbeam choir, and Robert Bondurant, faithful cornetist at all services, also did excellent work. The meeting lasted just two weeks, and resulted in seventy-four accessions to the church. There were eighteen additions yesterday—eight at the closing service last night. Dr. S. B. Moore, the pastor, baptized a large number of converts at the close of the service.

The official board and members regret that the meeting should close at high tide of interest, but the duties of Dr. Crossfield in the university at Lexington and illness in his family made his return home imperative. Both evangelist and singer will long have a warm place in the hearts of the people of Paducah.

### Boat Crew's Gallant Work.

Gallant work of a boat's crew from the revenue cutter Gresham in taking off Captain Sealby and a detail of the crew of the Republic who remained on board that vessel almost to the last moment, is spoken of particularly in the wireless dispatches.

The Republic had been towed a short distance by the Gresham, the derelict destroyer Seneca, which had arrived at the scene late in the evening, assisting in the work of towing. Suddenly the Republic was seen to be settling and rapid work on the part of the boat crew of the Gresham was necessary to get the Republic's crew away from the vessel.

Both the Gresham and Seneca proceeded toward Gay Head after the Republic went down.

### Fortunate Ending.

The drama of sea which for more than 24 hours has held the attention of the world and which has not been without tragic features, ran through its last sensational scenes with the coming of Sunday's dawn and came to a fortunate, if not happy ending. The ramming of the White Star liner Republic early Saturday by the Italian liner Florida off Nantucket, Mass., has been followed by a series of the most remarkable ocean mishaps on record.

No less than seven liners—the Baltic, New York, Furness, La Lorraine and Lucania and the two crippled ships, Florida and Republic—are figuring in the stirring story. The 442 passengers and some of the members of the crew of the Republic have undergone two transfers on the open sea, the first to the crippled Florida on Saturday morning and again early yesterday to the Baltic, which is bringing also the 500 and more passengers from the disabled Florida.

Baltic Takes on Passengers.  
With this great human cargo of rescued persons, besides her own list of 920 passengers, the Baltic arrived off Sandy Hook about 11 o'clock last night.

The Florida, her bow rent from the terrific impact with the Republic, is also slowly steering, but under her own steam, for this port, conveyed by the American liner New York.

Shortly after midnight the wireless telegraph, which had apprised the world of the Republic's distress and quickly brought other ships to her aid, flashed the news that two passengers on the Republic had been killed and two others injured.

### Four Deaths Reported.

Late in the day another wireless message told of four deaths on board the Florida, either members of the crew or stowaway passengers. The identity of these was not made clear.

A message from Captain Ransom of the Baltic gave the names of the dead passengers as Mrs. Eugene Lynch, of Boston, and W. J. Mooney, a banker, of Langdon, North Dakota. The injured are Mrs. M. M. Murphy, wife of the financial agent of the Union Central Life Insurance company, of Grand Forks, N. D., and Eugene Lynch, of Boston.

### Battle Expected.

After the transfer of passengers from the Republic to the Florida, which had no accommodation for 100 and more additions to her already heavy list, Captain Volturno, of the Italian ship, gave orders to stand by until further help arrived.

An examination of the Florida showed that her out-water and bow had been crumpled as if she had crashed into a stone wall and her two forward compartments filled with water. The Florida, however, showed no signs of sinking. It was deemed best, therefore, at a late hour to transfer not only the Republic's passengers but all those on board the Florida as well.

### Passengers Re-transferred.

Shortly before midnight the re-transfer of passengers from the Florida to the Baltic began. Fortunately the sea was placid.

All night long the transfer of passengers to the Baltic was in progress. There was little alarm among the passengers as they were taken in boats to the Baltic. The transfer, including the Florida's stowaway passengers, was completed. As morning advanced the fog lifted and the Republic was picked up. The gored liner seemed to be floating easier and Captain Sealby and his boat crew went aboard.

Meanwhile a fleet of salvage tugs had arrived and the American liner New York had taken a position near the Florida while the Anchor liner Furness stood by to render assistance.

## NOTICE.

I urgently request all persons indebted to me to make settlement before the first day of May, 1909, as I will after that date bring suit on every unpaid note and account due me. Now your account is to each of you a small matter, while the whole is to me very important. I shall deal with all alike; if you don't pay you may know that you will be sued, whatever your name or color may be. I hate to do this, but I am forced to it in self-defense. If you have not the money and will borrow it to pay me in full by the first day of March, 1909, I will deduct 10 per cent from your account, thereby paying the interest myself. Is this not as fair as any sane man can ask?
